PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant(s): Robert A. BOGER

Conf. No.: 2426

Application No.: 10/786,264

Art Unit: 2628

Filed: February 25, 2004

Examiner: Jeffrey J. CHOW

Title: METHOD AND APPARATUS FOR
CHANGING THE MODE OF A DISPLAY
APPARATUSCommissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450TELEPHONE INTERVIEW SUMMARY

Sir:

The Office is thanked for the courtesies and professionalism extended by Examiner Chow during the Telephone Interview conducted on Oct. 9, 2008. During the Interview the Examiner and Applicant's undersigned representative discussed the claimed invention and the pending application in general, the MPEP standard for inherency, the elements alleged to be inherent in the pending Office Action, and the art cited in the pending Office Action. Applicant's representative pointed out that a four-way §103 rejection with several claim elements alleged to

Serial No. 10/768,264

Docket No. GTW-0152(P1415.2)

be inherent is not a particularly strong rejection and would not likely be held up on appeal. The Examiner requested that Applicant's representative review the cited prior art before filing a response, and in particular, review the Ersoz patent, U.S. Patent 5,287,189. Applicant's representative agreed to carefully review the cited prior art, including the Ersoz patent, before preparing a Preliminary Amendment specifically intended to overcome the pending rejections.

CONCLUSION

In view of the foregoing, it is respectfully submitted that the application is in condition for allowance. However, in the event there are any unresolved issues, the Examiner is kindly invited to contact applicant's representative, Scott Richardson, by telephone at (571) 748-6200 so that such issues may be resolved as expeditiously as possible.

Respectfully submitted,

Scott Charles Richardson
